

## **Speech by Robert F. Kennedy from 29.08.2020 in Berlin. Thanks to Katarina Porrini**

Home, in the United States, the newspapers claim I came here to talk to 5000 nazis And tomorrow they will report exactly that I was talking to about 3000 to 5000 nazis But I look into this crowd and I see the opposite of nazis. I see people who love democracy. People who want an open government. People want leaders they are not lied to by. We don't want leaders who invent crazy rules and regulations to achieve obedience of the population.

We want leaders who don't have connections with the pharmaceutical industry but who work for us.

We want politicians who care about the health of our children, not pharmaceutical profits or government control. I look at this crowd, I see all European flags, I see people of every skin color, I see people of every nation, every religion all concerned about human dignity, children's health, political freedom, that's the opposite of Nazism.

Our governments love pandemics, they love pandemics for the same reason they love war. Because it allows them to install control mechanisms that people would never accept. These are institutions and mechanisms that require our submissiveness.

I'll tell you what, it's a mystery to me that all these big and important people like Bill Gates and Anthony Fauci thought about this pandemic for decades and planned it so we'd all be safe if this pandemic finally came. And now that she's here, they don't seem to know what they're talking about.

They seem to make it up all the time, they make up numbers for us to get into fear.

They can't give us a PCR test that actually works.

They need to constantly change the definition of covid to make it look more and more dangerous. One thing they are good at is bringing fear.

75 years ago, Hermann Goering was asked, " How did you manage to get the Germans to join in?", and he said, " It's an easy thing.

It has nothing to do with Nazism, it has to do with human nature.

You can do it in a Nazi regime, you can do it in a socialist regime, you can do it in a communist regime, you can do it in a monarchy and democracy.

The only thing the government needs to enslave people is fear.

50 years ago came my uncle John F. Kennedy to this city. He came to Berlin because it was the frontline against global totalitarianism. And today Berlin is again the frontline against global totalitarianism. He proudly said to the Germans: " I am a Berliner!". And today we can all proudly say: " I am a Berliner!". You are the front lines against totalitarianism. I want to say one more thing, they didn't do a good job protecting public health, but they did a good job using this pandemic to bring 5 G in our communities. They have created the beginning for a digital currency, and this is the beginning of slavery.

But when they control their bank account, they control their behavior. We all see these commercials on tv that when 5 G comes it's going to be a great thing for everyone.

It we change your life, it would make your lives so much better. It's very convincing, I have to say that because I see these ads and I think great, I can't wait to see it. Cause I would be able to download a video game in 6 seconds instead of 16 seconds. In this hour, they spend \$ 5 trillion on 5 G.

The reason for this is for surveillance and data collection, it's not for me and you, it's for Bill Gates, for Jeffrey, Zuckerberg and not us. With his satellites, Bill Gates can look at every square inch of the earth 24 hours a day. And this is just the beginning. He will be able to track you through sports equipment, biometric facial recognition via GPS.

You think Alexa works for you. She doesn't work for you, she works for Bill Gates who spies on you.

The pandemic is a crisis of convenience for the elites dictating these guidelines. It gives them the opportunity to wipe out the middle class to destroy the institution of democracy, to take us and all our wealth, from a handful of billionaires, so they become rich by the impoverishment of us all. And the only thing between them and our children is this crowd that came to Berlin. You won't take our freedom, you won't poison our children, we will reclaim our democracy! Thank you all for fighting!
